## 29 Jan 78

Dear Enquirer;

The incident stated in the attached report actually occurred. The Air Force appointed a special team of individuals to investigate the incident. I was one of those individuals. I am still on active duty and so I cannot state my name at this time. It is not that I do not trust the Enquirer (I sure you would treat my name with confidence) but I downot trust others. The incident which occurred on 16 Nov 77, was classified top secret on 2 Dec 77. At that time I obtained a copy of the original report. I thought at that time that the Air Force would probably hush the whole thing up, and they did. The Air Force ordered the silence on 1 Dec 77, after which, the report was classified. There were 16 pictures taken at the scene. I do not have access to the pictures at this time.

Force) \$1842, were formed. At 2340h-"., 16 Nov 77, the following information was learned: Upon arrival (2132hrs) at Site #1-9, LSAT, JENKINS & RAEKE, dismounted the SAT vehicle to make a check of the site fence line. At this time RAEKE observed a bright light shinning vertically upwards from the rear of the fence line of L-9. (There is a small hill approximately 50 yards behind L-9) JENKINS stayed with the SAT vehicle and RAEXE proceeded to the source of the light to investigate. As RAPKE approached the crost of the hill, he observed an individuals dressed in a glowing green metallic uniform and wearing a helmat with visor. RAEKE immediately challenged the individual, however; the individual refused to stop and kept walking towards the rear fence line of L-9. RAEKE simed his M-16 rifle at the intruder and ordered him to stop. The intruder turned towards RAEKE and simed a object at RAEKE which emitted a bright flash of intense light. The flash of light struck RAEKS'S M-16 rifle, disintegrating the weapon and causing second and third degree burns to RAEKE'S hands. RAEKE immediately took cover and conceaiment and radiced the situation to JENKINS, who inturn radioed a 10-13 distress to Line Control. JENKINS responded to RAEKE'S position and carried RAEKE back to the SAT vehic's. JENKINS then returned to the rear fence line to stand guard. JENKINS observed two intruders dressed at the same uniforms, welk through the mear fence line of L-9. JENKINS challenged the two individuals but they refused to stop. JENKINS simed and fired two rounds from his M-16 rifle. One bullet struck one intruder in the back and one bullet struck one intruder in the helmet. Both inturders fell to the ground, however, approximately 15 seconds later both returned to an upright position and fired several flashes of light at JENKINS. JENKINS took cover and the light missed JENKINS. To two intruders returned to the east side of the hill and disappeared. JENKING followed the two and observed them go inside a saucer shaped object approximately 20' in dismeter and 20' thick. The object emitted a glowing greenish light. Once the intruders were inside, the object climbed vertically upwards and disappeared over the Eastern horizon. BAF #1 arrived et the site et 2230hrs., and set up a security perimeter. Site Survey Teams arrived at the site (0120hrs.) and took radiation raddings, which measured from 1.7 to 2.9 roentgens. Missile Maintenance examined the missile and warnead and found the necules compotents missing from the warhead. COL. SPRAKER, Wing Codr, arrived at the site

and declared the site a National Defense Area and ordered all non essential personnel out of the area. All evidence found at the scene and the follow-up report will be classified by order of COL. Spraker.

ADDITIONAL INFORMATION: RAEKE was treated at the Base Hospital by MOD (Capt) Sanders for second and third degree radiation burns to each hand. RAEKE was Air-O-Vice to an unspecified location. RAEKE'S M-16 rifle could not be located at the sate.
